Mindluster Platform

About the course Serverless Design Patterns

Overview. Serverless is a cloud-native development model that allows developers to build and run applications without having to manage servers. There are still servers in serverless, but they are abstracted away from app development.

Programming Category's Courses

Course Lesson(9)

Lesson 1 : **Serverless Design Patterns and Best Practices The Course Overview |packtpub com**

Lesson 2 :
Serverless Design Patterns and Best Practices Is Serverless an One Size Fits|packtpub com

Lesson 3 : **Serverless Design Patterns and Best Practices Micro and Nano Services|packtpub com**
