Mindluster Platform

About the course Serverless Architecture with AWS Lambda

AWS Lambda is a serverless, event-driven compute service that lets you run code for virtually any type of application or backend service without provisioning or managing servers. You can trigger Lambda from over 200 AWS services and software as a service (SaaS) applications, and only pay for what you use.

Programming Category's Courses

Course Lesson(5)

Lesson 1 :
Hands on Serverless Architecture with AWS Lambda The Course Overview | packtpub com

Lesson 2 :
Hands on Serverless Architecture with AWS Lambda The AWS Cognito Service | packtpub com

Lesson 3 :
Hands on Serverless Architecture with AWS Lambda The Simple Queue Service | packtpub com

Lesson 4 :
Hands on Serverless Architecture with AWS Lambda Monitoring AWS Lambda | packtpub com

Lesson 5 :
Hands on Serverless Architecture with AWS Lambda AWS Serverless Application Model | packtpub com
