Mindluster Platform

About the course Python Artificial Intelligence

Python is a more well-known programming language than C++ for AI and has a lead with a 57% majority vote from developers. This is due to the fact that Python is simple to master and use. With its numerous libraries, it is also able to be used to analyze data. Performance-wise, C++ outperforms Python.

Programming Category's Courses

Course Lesson(4)

Lesson 1 : **Learning Python Artificial Intelligence by Example The Course Overview|packtpub com**

Lesson 2 :
Learning Python Artificial Intelligence by Example How Does Face Recognition Work |packtpub com

Lesson 3 :
Learning Python Artificial Intelligence by Example Summary of the Problem|packtpub com

Lesson 4 : **Learning Python Artificial Intelligence by Example CNNs|packtpub com**
