Mindluster Platform

About the course Serverless App Development with Node js

Node. js is great for building applications with heavy client-side rendering, multiple concurrent requests, and frequent shuffling of data from a client to a server. Whenever you think about building heavy I/O and data-driven applications, Node. js should definitely be the first option on your list .

Programming Category's Courses

Course Lesson(6)

Lesson 1 :
Serverless App Development with Node js Azure Functions The Course Overview | packtpub com

Lesson 2 :
Serverless App Development with Node js Azure Functions Hello World Function| packtpub com

Lesson 3 :
Serverless App Development with Node js Azure Functions E commerce App Scenario| packtpub com

Lesson 4 :
Serverless App Development with Node js Azure Functions Integrate App with Stripe API|packtpub com

Lesson 5 :
Serverless App Development with Node js Azure Functions Create Scheduled Function| packtpub com

Lesson 6 :
Serverless App Development with Node js Azure Functions Integrate App Function| packtpub com
