# About the course RESTful API Design with Node and MongoDB

MongoDB REST API is simple to set up and allows you to store and retrieve documents, making it great for Unstructured Data. Using Express JS as the backend web server with MongoDB as the document store is a common way of implementing the MongoDB REST API strategy .

**Programming Category's Courses**

# Course Lesson(7)

Lesson 1 :
**RESTful API Design with Node Express and MongoDB The Course Overview | packtpub com**

Lesson 2 :
**RESTful API Design with Node Express and MongoDB What Are REST APIs | packtpub com**

Lesson 3 :
**RESTful API Design with Node Express and MongoDB Creating the Post Model | packtpub com**

Lesson 4 :
**RESTful API Design with Node Express and MongoDB JWT and User Model | packtpub com**

Lesson 5 :
**RESTful API Design with Node Express and MongoDB Following Feature Considerations | packtpub com**

Lesson 6 :
**RESTful API Design with Node Express and MongoDB Add Posts Pagination | packtpub com**

Lesson 7 :
**RESTful API Design with Node Express and MongoDB Explore the Cloud Provider | packtpub com**
