Mindluster Platform

About the course Graph Algorithms with Neo4j

Neo4j is a native graph database, which means that it implements a true graph model all the way down to the storage level. The data isn't stored as a "graph abstraction" on top of another technology, it's stored just as you whiteboard it.

Programming Category's Courses

Course Lesson(5)

Lesson 1 : **Exploring Graph Algorithms with Neo4j The Course Overview | packtpub com**

Lesson 2 : **Exploring Graph Algorithms with Neo4j The Shortest Path Algorithm | packtpub com**

Lesson 3 : **Exploring Graph Algorithms with Neo4j Centrality Detection Principles | packtpub com**

Lesson 4 :
Exploring Graph Algorithms with Neo4j Algorithms Strength and Differences | packtpub com

Lesson 5 : **Exploring Graph Algorithms with Neo4j Link Prediction in Neo4j | packtpub com**
