Mindluster Platform

About the course Machine Learning for Finance

In finance, machine learning algorithms are used to detect fraud, automate trading activities, and provide financial advisory services to investors. Machine learning can analyze millions of data sets within a short time to improve the outcomes without being explicitly programmed.

Programming Category's Courses

Course Lesson(7)

Lesson 1 : **Machine Learning for Finance The Course Overview | packtpub com**

Lesson 2 : **Machine Learning for Finance Linear Regression Intuition | packtpub com**

Lesson 3 : **Machine Learning for Finance Decision Trees Intuition | packtpub com**

Lesson 4 : **Machine Learning for Finance What a Neural Network Is | packtpub com**

Lesson 5 :
Machine Learning for Finance Data for Ingestion into the Neural Network | packtpub com

Lesson 6 : **Machine Learning for Finance MPT and Stock Data Intuition | packtpub com**

Lesson 7 :
Machine Learning for Finance Softmax Sigmoid Activation in Neural Networks | packtpub com
