Mindluster Platform

About the course Mathematics for Machine Learning

Machine learning is powered by four critical concepts and is Statistics, Linear Algebra, Probability, and Calculus. While statistical concepts are the core part of every model, calculus helps us learn and optimize a model .

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **Mathematics for Machine Learning || Linear Algebra || Course 1**

Lesson 2 : **Mathematics for Machine Learning || Multivariate Calculus || Course 2**

Lesson 3 : **Mathematics for Machine Learning || PCA || Course 3**

Lesson 4 : **Statistics full Course for Beginner | Statistics for Data Science and Machine Learning**

Lesson 5 : **Linear Algebra for Beginners in One video**

Lesson 6 : **Statistic for beginners | Statistics for Data Science**
