Mindluster Platform

About the course DAX Functions

DAX includes many functions that return a table, rather than a value. The table is not displayed in a reporting client, but is used to provide input to other functions. For example, you can retrieve a table and then count the distinct values in it, or calculate dynamic sums across filtered tables or columns .

Programming Category's Courses

Course Lesson(9)

Lesson 1 : **DAX Interview Questions and Answers | Power BI Interview Questions and Answers**

Lesson 2 : **TCS Power BI Interview Questions and Answers**

Lesson 3 : **DAX Functions | Switch in Power BI | Switch in DAX**

Lesson 4 : **DAX Functions | MID in Power BI | mid in dax | dax left function**

Lesson 5 : **DAX functions | Left in Power BI | left in dax | mid in dax**

Lesson 6 : **DAX functions | Lower in Power BI | lower in dax**

Lesson 7 : **dax functions | rept in dax | rept in power bi**

Lesson 8 : **dax functions | upper in dax | Upper in Power BI**

Lesson 9 : **Earlier in Power BI | Earlier in DAX | Dax functions**
