About the course use Fragments in Android Studio

A Fragment is a combination of an XML layout file and a java class much like an Activity . Using the support library, fragments are supported back to all relevant Android versions. Fragments encapsulate views and logic so that it is easier to reuse within activities.

Programming Category's Courses

Course Lesson(6)

Lesson 1 : [Android Dialog Fragment to Activity](#)

Lesson 2 : [Dialog Fragment to Fragment](#)

Lesson 3 : [How to use Fragments in Android Android Advanced Tutorial 1](#)

Lesson 4 : [Android Tab Tutorial Android Studio Tab Fragments](#)

Lesson 5 : [Fragment to Fragment Communication](#)

Lesson 6 : [Swiping Images with ViewPager and TabLayout](#)
