Mindluster Platform

About the course Game With Python Pygame

It depends on the type of game. If you are making something that requires few graphical updates per cycle, and doesn't need too high a resolution, pygame is fantastic, and really easy to get the hang of. However, if you are going to be updating the entire screen each frame, pygame isn't really very optimised .

Programming Category's Courses

Course Lesson(4)

Lesson 1 : **Pygame Side Scroller Tutorial 1 Scrolling Background Character Movement**

Lesson 2 : **Pygame Side Scroller Tutorial 2 Random Object Generation**

Lesson 3 : **Pygame Side Scroller Tutorial 3 Collision**

Lesson 4 : **Pygame Side Scroller Tutorial 4 Scoring and End Screen**
