About the course Stocks and Bonds

Stocks give you partial ownership in a corporation, while bonds are a loan from you to a company or government. The biggest difference between them is how they generate profit: stocks must appreciate in value and be sold later on the stock market, while most bonds pay fixed interest over time.

Science Category's Courses

Course Lesson(44)

Lesson 1 : **Stock Trading Strategies for Beginners**

Lesson 2 : **How To Calculate The Return on Investment ROI of Real Estate Stocks**
