Mindluster Platform

About the course C Language Fundamentals

C Language Fundamentals course in hindi Explore the foundational concepts and programming techniques in C, a versatile and powerful language for software development

Programming Category's Courses

Course Lesson(61)

Lesson 1 : **C Language Introduction Video**

Lesson 2 : **C Programming | Introduction to C Language| History | Programming Language 01**

Lesson 3 : **C Programming | Types of Code| Language Processor | Programming Techniques 02**

Lesson 4 :
Basic Structure of C Program | Installation Code Block| Creating First Program in C Language 03

Lesson 5 : **Understanding Basic Structure of C Program | C Programming tutorials 04**

Lesson 6 : **C Language Identifiers and Keywords | C Programming Basic to advanced course 05**

Lesson 7 : **C Language Datatypes Variable | Variable Declaration Initialization in C Language 06**

Lesson 8 : **Operators in C Language | Types of Operator | All Operators in C 07**

Lesson 9 :
Constants in C Language | Ways to define constants in C Program | Types of Constants 08

Lesson 10 : **Uses of Format Specifiers and Escape sequences in C Program with Examples 09**

Lesson 11 :
How to Install Visual Studio Code | Install TDM GCC Compiler | C Language Tutorials 10

Lesson 12 :
Getting Input from User With the help of Scanf function | How to Make Unit Convertor in C 11

Lesson 13 : **IF Statement with the Help of Coding Example | What is Selection Structure in C 12**

Lesson 14 : **if else statement with the help of Coding and Exercise in C Language | C Tutorials 13**

Lesson 15 : **Multiple if else if Statement with the help of Coding and Exercise in C Language 14**

Lesson 16 : **Nested if Statement with the help of coding and example in C Language 15**

Lesson 17 : **How to Make Simple Calculator in C Language Using if else if Statement 16**

Lesson 18 : **Switch Statement with the help of coding and Exercise in C language 17**

Lesson 19 : **How to Make Simple Calculator Using Switch Statement in C Language 18**

Lesson 20 : **Character Input | getch and getche Function in C Programming Language 19**

Lesson 21 : **Sizeof Operator | How to Check the size of Operators in C language 20**

Lesson 22 : **Compound Assignment Operators in C Programming Language 21**

Lesson 23 : **Increment Operator in C | Prefix Form and Postfix Form in Increment Operators 22**

Lesson 24 : **Decrement Operator in C | Prefix Form and Postfix Form in Decrement Operators 23**

Lesson 25 : **What is Loops in C Language | Counter and Sentinel Controlled Loops 24**

Lesson 26 : **While Loop with the Help of Coding example in C Language 25**

Lesson 27 : **Do While Loop with the help Coding examples | C Language 26**

Lesson 28 : **For Loop With the help of Coding Examples | C Programming 27**

Lesson 29 : **Continue Statement With the help of Coding Examples | C Programming 28**

Lesson 30 : **Break Statement with the help of Coding examples | C Programming Course 29**

Lesson 31 : **Nested loops with the help of Coding examples | C Language 30**

Lesson 32 : **Arrays uses of arrays Declaring one Dimensional Array | C Language Tutorials 31**

Lesson 33 : **How to Initialization and accessing the Element of Array | C Programming 32**

Lesson 34 : **Input and Output values of Array | C Language Course in Urdu Hindi 33**

Lesson 35 : **Searching in Arrays 34**

Lesson 36 : **Binary Search in C Programming Language | C Language Tutorials 35**

Lesson 37 : **Two Dimensional Arrays | C Language Training Basic To Advance 36**

Lesson 38 : **Reverse an Array with the help of Coding Exercise| C Language Course in Urdu Hindi 37**

Lesson 39 : **Structure declaration and defining structure variable | C Programming 38**

Lesson 40 : **Arrays as a member of Structures | C Language Training Basic To Advance 39**

Lesson 41 : **Union working on union with the help of Coding Exercise| C Language Tutorials 40**

Lesson 42 : **Enumerations | C Language Training Basic To Advance 41**

Lesson 43 : **Pointers with the help of Coding | C Language Tutorials 42**

Lesson 44 : **Pointer Void Pointer in C Language | C Language Tutorials 43**

Lesson 45 : **How to Use Pointer with Arrays | C Language Training Basic To Advance 44**

Lesson 46 : **Functions | C Language Course in Urdu Hindi 45**

Lesson 47 : **Function Declaration | C Language Course in Urdu Hindi 46**

Lesson 48 : **Function Definition and Function Call| C Language Tutorials| C Language Tutorials 47**

Lesson 49 : **Passing Parameters to a Function| C Language Tutorials 48**

Lesson 50 : **Function Pass by Reference| C Language Tutorials 49**

Lesson 51 : **How to Return value from Function| C Language Tutorials 50**

Lesson 52 : **Scope of variable| C Language Training Basic To Advance 51**

Lesson 53 : **How to Use Arrays with Function | C Programming 52**

Lesson 54 : **Recursion| C Language Course in Urdu Hindi 53**

Lesson 55 : **String| C Language Training Basic To Advance 54**

Lesson 56 : **How to get String Input from user| C Language Tutorials 55**

Lesson 57 : **Files in C Language| C Language Training Basic To Advance 56**

Lesson 58 : **File Pointer| C Language Training Basic To Advance 57**

Lesson 59 : **Project A Employee record Management system | C Programming 58**

Lesson 60 : **Project B Employee Record Management System | C Programming 59**

Lesson 61 : **Project C Employee Record Management System| C Language Tutorials 60**
