Mindluster Platform

About the course Network Theory basics for Beginners

Network Theory basics course, in this course Explore fundamental concepts in networking, covering protocols, topologies, and communication principles.

Computer Science Category's Courses

Course Lesson(225)

Lesson 1 : **Network Theory by Engineering Funda**

Lesson 2 : **Network Theory Introduction**

Lesson 3 : **Network Synthesis and It s Applications**

Lesson 4 : **Ideal and Practical Sources Voltage Sources Current Sources**

Lesson 5 : **Classification of Network**

Lesson 6 : **Electric Charge and Electric Current**

Lesson 7 : **EMF Electro Motive Force and Potential or Voltage**

Lesson 8 : **How to select Battery for any electrical circuit or device Battery Parameters**

Lesson 9 : **Power and Energy**

Lesson 10 : **Power in Electrical Appliances**

Lesson 11 : **Examples on Electric Power for Series and Parallel connections**

Lesson 12 : **Kirchhoff s Current Law KCL**

Lesson 13 : **Kirchhoff s Voltage Law KVL**

Lesson 14 : **Examples on KVL and KCL**

Lesson 15 : **Duality in Network Analysis**

Lesson 16 : **Voltage Divider Rule with examples**

Lesson 17 : **Current Divider Rule with Examples**

Lesson 18 : **Examples on Voltage Divider Rule and Current Divider Rule**

Lesson 19 : **Basic Electrical Elements Resistor Inductor and Capacitor**

Lesson 20 :
Delta to Star Conversion Proof of Delta to Star Conversion Example of Delta to Star Conversion

Lesson 21 :
Star to Delta Conversion Proof of Star to Delta Conversion Example of Star to Delta Conversion

Lesson 22 : **Equivalent Resistance Problems EquivalentResistance**

Lesson 23 : **Equivalent Resistance Problem using Delta to Star Conversion**

Lesson 24 : **Equivalent Resistance Problem EquivalentResistance**

Lesson 25 : **Equivalent Resistance Problem using Symmetry EquivalentResistance**

Lesson 26 : **Equivalent Resistance Problems using Symmetry**

Lesson 27 :
Concept of Equipotential nodes and Symmetry to find Equivalent Resistance of Electrical Network

Lesson 28 : **Equivalent Resistance Problems using Series and Parallel connections**

Lesson 29 : **Equivalent Resistance Problems using Dependent Independent sources**

Lesson 30 : **1 Example of Electrical parameters for Inductance**

Lesson 31 :
Dot Convention Why Dot Convention in Inductor Case Study on Dot Convention DotConvention

Lesson 32 : **Example based on Dot Convention for induced EMF in inductors DotConvention**

Lesson 33 : **Equivalent Inductance for Series connection using Dot Convention DotConvention**

Lesson 34 : **Equivalent Inductance for Parallel connection using Dot Convention DotConvention**

Lesson 35 : **Equivalent Inductance using Dot Convention 1 EquivalentInductance DotConvention**

Lesson 36 : **Equivalent Inductance using Dot Convention 2 EquivalentInductance DotConvention**

Lesson 37 : **Equivalent Inductance using Dot Convention 3 EquivalentInductance DotConvention**

Lesson 38 : **Equivalent Inductance using Dot Convention 4 EquivalentInductance DotConvention**

Lesson 39 : **1 Mesh Analysis Example in Network Theory MeshAnalysisExample MeshAnalysis**

Lesson 40 : **2 Mesh Analysis Example in Network Theory MeshAnalysisExample MeshAnalysis**

Lesson 41 : **3 Mesh Analysis Example in Network Theory MeshAnalysisExample MeshAnalysis**

Lesson 42 :
Mesh Analysis Example for Complex Network in Network Theory MeshAnalysisExample ComplexNetwork

Lesson 43 :
1 Supermesh Analysis Example in Network Theory SupermeshAnalysis MeshAnalysisExample

Lesson 44 :
2 Supermesh Analysis Example in Network Theory SupermeshAnalysis MeshAnalysisExample

Lesson 45 : **1 Nodal Analysis Example NodalAnalysis NetworkTheory**

Lesson 46 : **2 Nodal Analysis Example NodalAnalysis NetworkTheory**

Lesson 47 : **3 Nodal Analysis for Complex Network NodalAnalysis NetworkTheory**

Lesson 48 : **Supernode Analysis Example 1 Supernode**

Lesson 49 : **Supernode Analysis Example 2 Supernode**

Lesson 50 : **Source Transformation and Network manipulation rules in Network Theory**

Lesson 51 : **Source Transformation Example 1**

Lesson 52 : **Source Transformation Example 2**

Lesson 53 : **1 Example on Source Transformation and Network Manipulation Rules**

Lesson 54 : **2 Example on Source Transformation and Network Manipulation Rules**

Lesson 55 : **3 Example on Source Transformation and Network Manipulation Rules**

Lesson 56 : **Examples on Source Transformation**

Lesson 57 : **Thevenin s Theorem TheveninTheorem**

Lesson 58 : **Thevenin s Theorem example for Independent source 1 TheveninTheorem**

Lesson 59 :
Thevenin s Theorem example for independent source and complex Network 3 TheveninTheorem

Lesson 60 : **Thevenin s Theorem example for dependent source 1 TheveninTheorem**

Lesson 61 : **Thevenin s Theorem example for dependent source 2 TheveninTheorem**

Lesson 62 : **Thevenin s Theorem Examples with Dependent and Independent sources**

Lesson 63 : **Thevenin s Theorem Examples with Dependent and Independent sources**

Lesson 64 : **Thevenin s Theorem Solved Example**

Lesson 65 : **Norton s Theorem NortonTheorem**

Lesson 66 : **Norton s Theorem example for independent source 1 NortonTheorem**

Lesson 67 : **Norton s Theorem example for dependent source NortonTheorem**

Lesson 68 : **Norton s Theorem Examples with Dependent and Independent sources**

Lesson 69 : **Millman s Theorem and Proof of Millman s Theorem MillmansTheorem**

Lesson 70 : **Millman s Theorem Example 1**

Lesson 71 : **Millman s Theorem Example 3**

Lesson 72 :
Maximum Power Transfer Theorem for Resistive Network MaximumPowerTransferTheorem

Lesson 73 :
Maximum Power Transfer Theorem for Complex Network MaximumPowerTransferTheorem

Lesson 74 : **Maximum Power Transfer Theorem Solved Example with Resistive Network**

Lesson 75 : **Maximum Power Transfer Theorem Solved Example on Complex Network**

Lesson 76 : **Maximum Power Transfer Theorem Solved Examples**

Lesson 77 :
Norton s Theorem Thevenin s Theorem Maximum Power Transfer Theorem Example for Dependent source

Lesson 78 : **1 Examples on KVL KCL Nodal and Mesh Analysis**

Lesson 79 : **4 Examples on KVL KCL Nodal and Mesh Analysis**

Lesson 80 : **6 Examples on KVL KCL Nodal and Mesh Analysis**

Lesson 81 : **7 Examples on KVL KCL Nodal and Mesh Analysis**

Lesson 82 : **Concept of Power delivered or Absorbed by the Source**

Lesson 83 : **1 Examples on Power delivered Absorbed by the Sources**

Lesson 84 : **3 Examples on Power delivered or Absorbed by the Sources**

Lesson 85 : **Energy Calculation by waveforms**

Lesson 86 : Reciprocity Theorem in Network Analysis with Examples

Lesson 87 : 1 Examples on Reciprocity Theorem in Network Theory

Lesson 88 : Average and RMS Calculation

Lesson 89 : Transient Response of RL Circuit or Time Response of RL Circuit in Network Theory

Lesson 90 : Transient Response of RC Circuit or Time Response of RC Circuit in Network Theory

Lesson 91 : 1 Transient Response Solved Example in Network Theory

Lesson 92 : 2 Transient Response Solved Example in Network Theory

Lesson 93 : 3 Transient Response Solved Example in Network Theory

Lesson 94 : 5 Transient Response Solved Example in Network Theory

Lesson 95 : 6 Transient Response Solved Example in Network Theory

Lesson 96 : 8 Transient Response Solved Example in Network Theory

Lesson 97 : 9 Transient Response Solved Example in Network Theory

Lesson 98 : 10 Transient Response Solved Example in Network Theory

Lesson 99 : 11 Transient Response Solved Example in Network Theory

Lesson 100 : 12 Transient Response Solved Example in Network Theory

Lesson 101 : 14 Transient Response Solved Example in Network Theory

Lesson 102 : Initial Condition and Final Condition of Electrical Elements

Lesson 103 : Initial Condition Example for RL Circuit in Network Theory

Lesson 104 : Initial Condition Example for RC Circuit in Network Theory

Lesson 105 : Initial Condition Example for RLC Circuit in Network Theory

Lesson 106 : Initial Condition Example for RLC Circuit in Network Theory

Lesson 107 : Initial Condition Example for RL circuit in Network Theory

Lesson 108 : Initial Condition Example for RC Circuit

Lesson 109 : 1 Examples on Initial and Final Conditions

Lesson 110 : Laplace Transform properties and Formulas for Network Analysis

Lesson 111 : Laplace Transform in Network Analysis

Lesson 112 : RC Transient Response using Laplace Transform

Lesson 113 : RL Transient Response using Laplace Transform

Lesson 114 : 1 Transient Response Solved Example using Laplace Transform

Lesson 115 : 2 Transient Response Solved Example using Laplace Transform

Lesson 116 : 3 Transient Response Solved Example using Laplace Transform

Lesson 117 : 4 Transient Response Solved Example using Laplace Transform

Lesson 118 : 5 Transient Response Solved Example using Laplace Transform

Lesson 119 : 6 Transient Response Solved Example using Laplace Transform

Lesson 120 : **7 Transient Response Solved Example using Laplace Transform**

Lesson 121 : **8 Transient Response Solved Example using Laplace Transform**

Lesson 122 : **9 Transient Response Solved Example using Laplace Transform**

Lesson 123 : **10 Transient Response Solved Example using Laplace Transform**

Lesson 124 : **11 Transient Response Solved Example using Laplace Transform**

Lesson 125 : **12 Transient Response Solved Example using Laplace Transform**

Lesson 126 : **Transient Response Solved Example**

Lesson 127 : **1 Equivalent Impedance Calculation using Laplace transform**

Lesson 128 : **2 Equivalent Impedance Calculation using Laplace Transform**

Lesson 129 : **3 Equivalent Impedance Calculation using Laplace Transform**

Lesson 130 : **4 Equivalent Impedance Calculation using Laplace Transform**

Lesson 131 : **Applications of Laplace Transform in Network Theory**

Lesson 132 : **Initial Value Theorem and Final Value Theorem with Examples**

Lesson 133 : **Significance of Poles and Zeros in Network Function with Examples**

Lesson 134 : **Transfer Function of Electrical Network by Laplace Transform**

Lesson 135 :
Voltage Gain Current Gain Transfer Impedance Transfer Admittance of Electrical Network

Lesson 136 : **Y Parameters or Admittance Parameters**

Lesson 137 : **1 Example of Y Parameters**

Lesson 138 : **Z Parameters or Impedance Parameters**

Lesson 139 : **1 Example of Z Parameters**

Lesson 140 : **Y Parameters to Z Parameters Conversion**

Lesson 141 : **Z Parameters to Y Parameters Conversion**

Lesson 142 : **H Parameters or Hybrid Parameters**

Lesson 143 : **1 Example of H Parameters**

Lesson 144 : **H Parameters to Y Parameters Conversion Y Parameters to H Parameters Conversion**

Lesson 145 : **H Parameters to Z Parameters Conversion Z Parameters to H Parameters Conversion**

Lesson 146 : **g Parameters or Inverse Hybrid Parameters**

Lesson 147 :
ABCD Parameters or Transmission Parameters or T Parameters or Chain Parameters or Cascade Parameters

Lesson 148 : **1 Example on ABCD Parameters**

Lesson 149 : **Conditions of Reciprocal Network and Symmetrical Network for Y Parameters**

Lesson 150 : **Conditions of Reciprocal Network and Symmetrical Network for Z Parameters**

Lesson 151 : **Conditions of Reciprocal Network and Symmetrical Network for H Parameters**

Lesson 152 : **Conditions of Reciprocal Network and Symmetrical Network for g Parameters**

Lesson 153 : **Conditions of Reciprocal Network and Symmetrical Network for ABCD Parameters**

Lesson 154 : **Two Port Network Parameters Y Z H g ABCD**

Lesson 155 : **Parallel connections of Two Port Network**

Lesson 156 : **Series connections of Two Port Network**

Lesson 157 : **Cascade connections of Two Port Network**

Lesson 158 : **Series Input Parallel Output connections of Two Port Network**

Lesson 159 : **Parallel Input Series Output connections of Two Port Network**

Lesson 160 : **1 Examples of Two Port Network Y Parameters Shortcut Trick**

Lesson 161 : **2 Examples of Two Port Network Z Parameters Shortcut Trick**

Lesson 162 : **5 Examples of Two Port Network**

Lesson 163 : **6 Examples of Two Port Network**

Lesson 164 : **7 Examples of Two Port Network**

Lesson 165 : **10 Examples on Two Port Network**

Lesson 166 : **12 Examples of Two Port Network**

Lesson 167 :
Image Impedance Characteristics Impedance Short Circuit Impedance Open Circuit Impedance

Lesson 168 : **Short Tricks to identify Z Parameters of Lattice Network**

Lesson 169 : **Two Port Parameters of Transformer with Example**

Lesson 170 : **Gyrator in Two Port Network with Example**

Lesson 171 : **Equivalent Thevenin Impedance and Thevenin Voltage based on Two Port Network**

Lesson 172 : **13 Examples of Two Port Network**

Lesson 173 : **15 Examples of Two Port Network**

Lesson 174 : **17 Examples of Two Port Network**

Lesson 175 : **19 Examples of Two Port Network**

Lesson 176 : **Graph Theory and It s Applications**

Lesson 177 : **Graph Theory Terminologies Node Branch Degree of Node Tree Co Tree Twig Link**

Lesson 178 : **Graph Drawing of Electrical Network**

Lesson 179 : **Examples on Graph Terminologies**

Lesson 180 : **Incidence Matrix Reduced Incidence Matrix and Number of Tree in Graph**

Lesson 181 :
Examples on Incidence Matrix Reduced Incidence Matrix and Number Tree for given Graph

Lesson 182 : **Tie Set Fundamental Tie Set and Tie Set Matrix with Examples**

Lesson 183 : **Example on Tie Set Matrix of Graph Theory**

Lesson 184 : **Cut Set Fundamental Cut Set and Cut Set Matrix with Examples**

Lesson 185 : **Essential Key Points on Tie Set and Cut Set Matrix**

Lesson 186 : **KVL and KCL Equations by Cut Set Matrix and Tie Set Matrix**

Lesson 187 : **Orient Graph from Cut Set Matrix**

Lesson 188 : **Graph Drawing Tree Cut Set Matrix KCL Equations and Voltage Equations**

Lesson 189 : **1 Examples on Graph Theory**

Lesson 190 : **2 Examples on Graph theory**

Lesson 191 : **4 Examples on Graph Theory**

Lesson 192 : **5 Examples on Graph Theory**

Lesson 193 : **AC Analysis in Network Theory**

Lesson 194 : **Phasor Diagram of Resistor**

Lesson 195 : **Phasor Diagram of Inductor**

Lesson 196 : **Phasor Diagram of Capacitor**

Lesson 197 : **Phasor Diagram of RL Series Circuit**

Lesson 198 : **Phasor Diagram of RC Series Circuit**

Lesson 199 : **Phasor Diagram of RLC Series Circuit**

Lesson 200 : **Phasor Diagram of RL Parallel Circuit**

Lesson 201 : **Phasor Diagram of RC Parallel Circuit**

Lesson 202 : **Phasor Diagram of RLC Parallel Circuit**

Lesson 203 : **1 Examples of Phasor with RLC Circuit**

Lesson 204 : **3 Examples of Phasor with RLC Circuit**

Lesson 205 : **5 Examples of Phasor with RLC Circuit**

Lesson 206 : **8 Examples of Phasor with RLC Circuit**

Lesson 207 :
Power in AC Circuit Instantaneous Power Average Power Apparent Power and Power Factor

Lesson 208 : **Power in AC Circuit Complex Power Active Power and Reactive Power**

Lesson 209 : **Power Triangle and Impedance Triangle**

Lesson 210 :
1 Examples of Power in AC RLC Circuit Power calculation for Multiple Harmonics of Voltage Current

Lesson 211 : **3 Examples of Power in AC RLC Circuit**

Lesson 212 : **5 Examples of Power in AC RLC Circuit**

Lesson 213 : **7 Examples of Power in AC RLC Circuit**

Lesson 214 : **10 Examples of Power in AC RLC Circuit**

Lesson 215 : **Resonance in Series RLC Circuit**

Lesson 216 : **Bandwidth in Series RLC Circuit**

Lesson 217 : **Quality Factor in Series RLC Circuit**

Lesson 218 : **Relation of Quality Factor and Damping Factor**

Lesson 219 : **Essential Formulas for Series and Parallel RLC Circuit for AC Analysis**

Lesson 220 : **1 Examples of AC Analysis in RLC Circuit**

Lesson 221 : **3 Examples of AC Analysis in RLC Circuit**

Lesson 222 : **5 Examples of AC Analysis in RLC Circuit**

Lesson 223 : **6 Examples of AC Analysis in RLC Circuit**

Lesson 224 : **9 Examples of AC Analysis in RLC Circuit**

Lesson 225 : **Network Theory on Engineering Funda Android Application**
