Mindluster Platform

About the course Concurrent Programming with C

Concurrent program is a program that offers more than one execution paths that run in parallel or simply a program that implements the concurrency. These execution paths are managed by means of threads that execute concurrently and work together to perform some task .

Programming Category's Courses

Course Lesson(10)

Lesson 1 : **C Threading 1 Introduction**

Lesson 2 : **C Threading 2 Thread Management**

Lesson 3 : **C Threading 3 Data Race and Mutex**

Lesson 4 : **C Threading 4 Deadlock**

Lesson 5 : **C Threading 5 Unique Lock and Lazy Initialization**

Lesson 6 : **C Threading 6 Condition Variable**

Lesson 7 : **C Threading 7 Future Promise and async**

Lesson 8 : **C Threading 8 Using Callable Objects**

Lesson 9 : **C Threading 9 packaged task**

Lesson 10 : **C Threading 10 Review and Time Constrain**
