About the course Compiler Design Optimization Techniques

Compiler Design course, In this course we'll explore Compiler Design, covering lexical analysis, parsing, optimization, and code generation.

Computer Science Category's Courses

Course Lesson(9)

Lesson 1 : **Introduction to Compiler Design**

Lesson 2 : **Different Phases of Compiler**

Lesson 3 : **Symbol Table**

Lesson 4 : **Symbol Table â€“ Solved PYQs**

Lesson 5 : **Introduction to Lexical Analyzer**

Lesson 6 : **Lexical Analyzer â€“ Tokenization**

Lesson 7 : **Lexical Analyzer Solved Problems Set 1**

Lesson 8 : **Lexical Analyzer Solved Problems Set 2**

Lesson 9 : **Errors and Error Recovery in Lexical Analysis**
