Mindluster Platform

About the course Thermodynamics for Chemical Engineers

Thermodynamics course, In this course we will explore the principles governing energy and heat transfer in various systems and their practical applications.

Engineering Category's Courses

Course Lesson(119)

Lesson 1 : **Thermodynamics Course Overview Thermodynamics Class 1**

Lesson 2 : **Introduction to Basic Concepts Thermodynamics Class 2**

Lesson 3 : **Definition of Temperature Thermodynamics Class 3**

Lesson 4 : **Scales of Temperature Thermodynamics Class 4**

Lesson 5 : **The Zeroth Law Thermodynamics Class 5**

Lesson 6 : **Temperature vs Heat Thermodynamics Class 6**

Lesson 7 : **Mass vs Weight Thermodynamics Class 7**

Lesson 8 : **Force vs Gravity Thermodynamics Class 8**

Lesson 9 : **Force vs Weight Thermodynamics Class 9**

Lesson 10 : **Force vs Pressure Thermodynamics Class 10**

Lesson 11 : **Volumetric Flow Thermodynamics Class 12**

Lesson 12 : **Molar Flow Thermodynamics Class 13**

Lesson 13 : **Molar Flow to Volumetric Flow Thermodynamics Class 14**

Lesson 14 : **System Surroundings and Boundaries Thermodynamics Class 15**

Lesson 15 : **Type of Systems Open Closed etc Thermodynamics Class 16**

Lesson 16 : **Other Basic Definitions Thermodynamics Class 17**

Lesson 17 : **Intensive Properties Thermodynamics Class 18**

Lesson 18 : **Extensive Properties Thermodynamics Class 19**

Lesson 19 : **Definition of Process Thermodynamics Class 20**

Lesson 20 : **Definition of Trajectory Thermodynamics Class 21**

Lesson 21 : **State Function Thermodynamics Class 22**

Lesson 22 : **Process Function AKA Path Functions Thermodynamics Class 23**

Lesson 23 : **What is a Cycle Thermodynamics Class 24**

Lesson 24 : **Introduction to Energy and Work Thermodynamics Class 25**

Lesson 25 : **Forms of Energy Thermodynamics Class 26**

Lesson 26 : **Content Energy Thermodynamics Class 27**

Lesson 27 : **Kinetic Energy Thermodynamics Class 28**

Lesson 28 : **Potential Energy Thermodynamics Class 29**

Lesson 29 : **Internal Energy U Thermodynamics Class 30**

Lesson 30 : **Introduction to Enthalpy H Thermodynamics Class 31**

Lesson 31 : **Transit Energy Thermodynamics Class 32**

Lesson 32 : **Transit and Content Energies Thermodynamics Class 33**

Lesson 33 : **More on Work Thermodynamics Class 34**

Lesson 34 : **More on Heat Thermodynamics Class 35**

Lesson 35 : **End of Block Basic Concepts Thermodynamics Class 36**

Lesson 36 : **Introduction to Pure Substances Thermodynamics Class 38**

Lesson 37 : **Pure Substances and Mixtures Thermodynamics Class 39**

Lesson 38 : **Phase Changes of Matter Thermodynamics Class 41**

Lesson 39 : **Saturation Point of a Pure Substance Thermodynamics Class 42**

Lesson 40 : **Dew and Bubble Points in Saturation Thermodynamics Class 43**

Lesson 41 : **Saturated Mixtures Saturated Liquid and Vapors Thermodynamics Class 45**

Lesson 42 : **Pressure Temperature Phase Diagram Thermodynamics Class 46**

Lesson 43 : **Triple Point in a Phase Diagram Thermodynamics Class 47**

Lesson 44 : **Critical Point of a Pure Substance Thermodynamics Class 48**

Lesson 45 : **Difference between Vapor and a Gas Thermodynamics Class 49**

Lesson 46 : **Reduced Temperature and Pressure Thermodynamics Class 50**

Lesson 47 : **Pressure Volume Phase Diagram Thermodynamics Class 51**

Lesson 48 : **P V T Phase Diagram Thermodynamics Class 52**

Lesson 49 : **What is Enthalpy Thermodynamics Class 53**

Lesson 50 : **Pressure Enthalpy Diagram Thermodynamics Class 54**

Lesson 51 : **Vapor Mixtures of Liquid Gas Thermodynamics Class 55**

Lesson 52 : **Vapor Quality X Thermodynamics Class 56**

Lesson 53 : **Vapor Quality Relationships in U H S and Volume Thermodynamics Class 57**

Lesson 54 : **Introduction to Vapor Tables Thermodynamics Class 58**

Lesson 55 : **More on Vapor Tables Thermodynamics Class 59**

Lesson 56 : **Vapor Table Exercise 1 of 5 Thermodynamics Class 60**

Lesson 57 : **Vapor Table Exercise 2 of 5 Thermodynamics Class 60**

Lesson 58 : **Vapor Table Exercise 3 of 5 Thermodynamics Class 60**

Lesson 59 : **Vapor Table Exercise 4 of 5 Thermodynamics Class 60**

Lesson 60 : **Vapor Table Exercise 5 of 5 Thermodynamics Class 60**

Lesson 61 : **Using Numerical Methods for Vapor Table Data Thermodynamics Class 61**

Lesson 62 : **Interpolation Basics for vapor Tables Thermodynamics Class 62**

Lesson 63 : **Interpolation Failure in Vapor Tables Thermodynamics Class 63**

Lesson 64 : **Extrapolating Data from Vapor Tables Thermodynamics Class 64**

Lesson 65 : **Some Rule of Thumbs for Vapor Tables Thermodynamics Class 65**

Lesson 66 : **Refrigerants in Engineering Thermodynamics Class 66**

Lesson 67 : **How to read Refrigerant Property Diagrams R 134A Thermodynamics Class 67**

Lesson 68 : **Some Other Types of Refrigerants Thermodynamics Class 68**

Lesson 69 : **Refrigerant Diagram Exercise 1 of 7 Thermodynamics Class 69**

Lesson 70 : **Refrigerant Diagram Exercise 3 of 7 Thermodynamics Class 69**

Lesson 71 : **Refrigerant Diagram Exercise 2 of 7 Thermodynamics Class 69**

Lesson 72 : **Refrigerant Diagram Exercise 4 of 7 Thermodynamics Class 69**

Lesson 73 : **Refrigerant Diagram Exercise 5 of 7 Thermodynamics Class 69**

Lesson 74 : **Refrigerant Diagram Exercise 6 of 7 Thermodynamics Class 69**

Lesson 75 : **Refrigerant Diagram Exercise 7 of 7 Thermodynamics Class 69**

Lesson 76 : **Introduction to Gases in Pure Substances Thermodynamics Class 70**

Lesson 77 : **Ideal Gas Law Thermodynamics Class 71**

Lesson 78 : **Ideal Gas Law Exercise Thermodynamics Class 72**

Lesson 79 : **Standard Temperature Pressure Thermodynamics Class 73**

Lesson 80 : **Van der Waals Equation Theory Thermodynamics Class 74**

Lesson 81 : **Van der Waals Equation Exercise Thermodynamics Class 75**

Lesson 82 : **The Acentric Factor Pitzer Thermodynamics Class 76**

Lesson 83 : **Virial Equation and Truncated Equation Thermodynamics Class 77**

Lesson 84 : **Truncated Virial Equation Exercise Thermodynamics Class 78**

Lesson 85 : **Beatie Bridgeman Equation of State Thermodynamics Class 79**

Lesson 86 : **Beattie Bridgeman Equation Exercise Thermodynamics Class 80**

Lesson 87 : **Benedict Webb Rubin Equation of State Thermodynamics Class 81**

Lesson 88 : **EXERCISE of the Benedict Webb Rubin Equation of State Thermodynamics Class 82**

Lesson 89 : **Newton s Correction for Critical Properties Thermodynamics Class 86**

Lesson 90 : **Peng Robinson Equation of State Thermodynamics Class 84**

Lesson 91 : **Compressibility Factor Z Thermodynamics Class 85**

Lesson 92 : **Compressibility Chart Data Thermodynamics Class 87**

Lesson 93 : **Law of Corresponding States Thermodynamics Class 88**

Lesson 94 : **Compressibility Charts Z generalized Thermodynamics Class 89**

Lesson 95 : **Compressibility Z Chart Exercises Thermodynamics Class 90**

Lesson 96 : **Real Gas Mixtures Kay Rule Thermodynamics Class 91**

Lesson 97 : **Kay Rule Exercises for Real Gas Mixtures Thermodynamics Class 92**

Lesson 98 : **What is Enthalpy A review of definitions Thermodynamics Class 93**

Lesson 99 : **Sensible Heat Enthalpy Change Thermodynamics Class 94**

Lesson 100 : **Specific Heat Capacity Constant Pressure Thermodynamics Class 95**

Lesson 101 : **Specific Heat Capacity Constant VOLUME Thermodynamics Class 96**

Lesson 102 : **More on Specific Heat Capacities Open and Closed Systems Thermodynamics Class 97**

Lesson 103 : **Cv Specific Heat Capacity at Constant Volume Thermodynamics Class 98**

Lesson 104 : **Heat Experiments with Cp and Cv Thermodynamics Class 99**

Lesson 105 : **Why is Cp Cv R Thermodynamics Class 100**

Lesson 106 : **Latent Heat Enthalpy Change Thermodynamics Class 101**

Lesson 107 : **Sensible Heat Exercise 1 of 3 Thermodynamics Class 102**

Lesson 108 : **Sensible Heat Exercise 2 of 3 Thermodynamics Class 102**

Lesson 109 : **Sensible Heat Exercise 3 of 3 Thermodynamics Class 102**

Lesson 110 : **Latent Heat Exercise 1 of 3 Thermodynamics Class 103**

Lesson 111 : **Latent Heat Exercise 2 of 3 Thermodynamics Class 103**

Lesson 112 : **Latent Heat Exercise 3 of 3 Thermodynamics Class 103**

Lesson 113 : **Other Types of Heat Effects or Enthalpies Thermodynamics Class 104**

Lesson 114 : **Heat of Reaction Overview Thermodynamics Class105**

Lesson 115 : **Heat of Solution Overview Thermodynamics Class 106**

Lesson 116 : **Heat of Combustion Overview Thermodynamics Class 107**

Lesson 117 : **Heat of Formation Overview Thermodynamics Class 108**

Lesson 118 : **Textbook Reference and Exercises Thermodynamics Class 109**

Lesson 119 : **End of Block 3 Pure Substances Thermodynamics Class 110**
