Mindluster Platform

About the course Artificial Lift Techniques

Artificial Lift course, In this course explore the principles and techniques of artificial lift systems in oil and gas production.

Engineering Category's Courses

Course Lesson(8)

Lesson 1 : **34 Introduction to gas lift**

Lesson 2 : **35 Gas lift exercise**

Lesson 3 :
35 1 Flow equilibrium and gas lift performance curve on gas lifted oil well using tubing tables

Lesson 4 : **36 Gas lift hardware**

Lesson 5 : **37 Introduction to Electrical Submersible Pumps**

Lesson 6 : **38 ESP flow performance part 1**

Lesson 7 : **39 ESP flow performance part 2**

Lesson 8 : **40 Electric submersible pump Exercise**
