Mindluster Platform

About the course Field processing systems

Field processing systems course, In this course discover the principles and practices of processing hydrocarbons in field operations.

Engineering Category's Courses

Course Lesson(8)

Lesson 1 : **Course introduction HC processing**

Lesson 2 : **Intro multistage separation**

Lesson 3 : **Flash calculation Rachford Rice**

Lesson 4 : **Estimation of properties for hydrocarbon systems with Peng Robinson EOS**

Lesson 5 : **Water content in natural gas Intro**

Lesson 6 : **Water content in natural gas class exercise Intro to hydrates**

Lesson 7 : **Gas dehydration with TEG contactor**

Lesson 8 : **Gas dehydration with TEG Class exercise**
